TCL		ELITE PRN-24CHS/XAC1		ELITE PRN-24CHS/XAC1	
Indoor unit model name					
Outdoor unit model name					
Sound power level (inside)		54		dB(A)	
Sound power level (outside)		67		dB(A)	
Refrigerant R32		GWP		675	
Refrigerant leakage contributes to climate change. Refrigerant with lower global warming potential (GWP) would contribute less to climate change. The GWP of the refrigerant used in this product is 675, which is lower than that of R410A (1985) and R404A (1140). Since this product is a refrigerant filled product, it is recommended that the user should not open the product without the necessary tools and equipment. If the product is opened, the refrigerant should be recovered and the product should be repaired by a professional. If the product is damaged, the user should contact the manufacturer or the local government for disposal. The user should not dispose of the product in the trash.					
Coding mode		6.5		A	
SEER		6.8		kW	
Energy efficiency class		386		kW	
Design load (Pdesign)					
Energy consumption,					
Actual energy consumption will depend on how the appliance is used and where it is located.					
Heating mode (Average)		4.1		kW	
Energy efficiency class		5.5		kW	
Design load (Pdesign)		5.3		kW	
Declared capacity		5.3		kW	
Back up heating capacity		1878		kW	
Energy consumption,					
Actual energy consumption will depend on how the appliance is used and where it is located.					
Heating mode (Warmer) Optional		5.1		kW	
SCOP		5.7		kW	
Energy efficiency class		5.7		kW	
Design load (Pdesign)		5.7		kW	
Declared capacity		5.7		kW	
Back up heating capacity		0		kW	
Energy consumption,		1365		kW	
Actual energy consumption will depend on how the appliance is used and where it is located.					
Heating mode (Colder) Optional		-		kW	
SCOP		-		kW	
Energy efficiency class		-		kW	
Design load (Pdesign)		-		kW	
Declared capacity		-		kW	
Back up heating capacity		-		kW	
Energy consumption,		-		kW	
Actual energy consumption will depend on how the appliance is used and where it is located.
